QUALITY, FOOD SAFETY AND ENVIRONMENTAL POLICY

Our organization MAGRONI DOO is determined to fully implement the QUALITY, FOOD SAFETY AND ENVIRONMENTAL POLICY, which is a framework for establishing the defined goals for quality, food safety and the environment, aligned with the context of MAGRONI DOO, whose principles are:

1. Creating a business quality system, a food safety system and an environmental management system,
strongly supported by the top management and customer-oriented, in order to increase their trust;

2. Delivering a quality and safe product in accordance with the legislation of the Republic of North Macedonia to the valued buyer, as well as environmental protection;

3. Orienting and adapting to the market, in order to increase participation in it;

4. Establishing correct relations with suppliers for the purpose of supplying quality and safe repro-materials and environmental protection;

5. Identifying and managing all risks that can cause loss of work and customers and reduction of profit, as well as environmental pollution and everything that adversely affects the operation of MAGRONI;

6. Continuously increasing the competence of all employees authorized to work within their defined responsibility;

7. Meeting the needs of its employees and taking care of the environment.

MAGRONI DOO undertakes to:

1. Continuously maintain and improve the integrated management system for quality, food safety and environment in accordance with the requirements of international standards ISO 9001:2015; ISO 22000:2018; HACCP; ISO 14001:2015, for the purpose of satisfied customers;

2. Demonstrate leadership, maintain a high level of awareness and strongly support the diverse competences of employees at all levels, for the maintenance of food quality and safety, as well as for the prevention of environmental pollution;

3. Improve working conditions, equipment and knowledge of employees, as well as the environmental protection conditions.
